All records still needed from the client

Checked 12 November 2026 against the dashboard's records (latest statement dated 4 November 2026). This list replaces the earlier lists (checked 27 October and 11 November 2026): records received since then are no longer requested and are listed in section 5, and the newer statements raised the new items below. Section 4 is new: the valuations at the start of the year that this year's returns need. Includes all client requests: purchase and balance records, PMS stock history, and private investment valuations. One complete broker or fund export can answer several rows.

1. Purchase, date, balance and other records

Holder and account	Stock, fund or file	Exactly what to send	Ask for it from
Ajay Jaisinghani ICICI NSDL 49794950	1. 4. Valuations at the start of the year

The financial-year return is measured from 31 March 2026 and the calendar-year return from 31 December 2025. Each needs every account's value on that date and the money paid in or out after it. For the accounts below, the earliest valuation on file is later, so their return for the year can only start from that later date. In particular, the January to March 2026 market fall is not captured for most of the book. A statement dated within a few days of 31 December 2025 or 31 March 2026 is enough.
